24 Hour San Diego Water Removal (888) 349-2564

San Diego Water Removal Services provides 24 hr on call emergency water removal services for commercial and residential customers throughout San Diego County, Ca.

Emergency clean up assistance for unexpected water damage of all kinds is available, ranging from minor plumbing leaks to major bursts, fire sprinklers, sewage backups, toilet and bath overflows or rain water entering your home.

San Diego Water Removal Service understands that floods can strike any time without warning. When it does, you need a reliable water removal service and fast. We will dispatch trained personnel right away to your location day or night usually within 60 Minutes.

San Diego Water Removal 24/7

Damage from water leaks and pipe breaks require fast water removal, clean up and dry out, and important steps need to be taken to save your property from mold and mildew. Water damage issues require help from expert technicians

San Diego Water Removal Services

handle all types of disasters such as water heater leaks, toilet overflows, sewer spill and the like. Water removal services are needed initially and quickly.

After a fire, flood or plumbing failure, fast action to dry out and restore water damaged areas can mean saving thousands of dollars. Certified Technicians will extract the water from your carpet or hardwood floor and salvage as much material as possible. They will set up drying equipment to quickly dry the affected areas. Water removal must be done immediately after a flood occurs or further damage will occur.

Water damage services include the inspection of the affected area(s) with water sensing equipment such as moisture meters and other infrared tools in order to determine the source of the damage, and possible extent of area affected. Restoration services would then be rendered to the residence in order to dry the structure, sanitize any affected or cross contaminated areas, and deodorize all affected areas and materials. After the labor is completed, water damage equipment including, but not limited to, air movers, air scrubbers, dehumidifiers, wood floor drying systems, and sub floor drying equipment is left in the residence.

San Diego Water Removal & dry out

After the labor cleanup is completed, a re-evaluation of the residence is taken to monitor the drying process, and any equipment not further needed is removed as to keep the charges under control. A quote for the restoration process is then provided. Call San Diego Flood Services today.
